

## Home builder gets new digs

**Cornerstone Homes**, founded in Mesa in 1998, relocated its corporate headquarters to **Dover Industrial Park** at 4220 E. McDowell Road, west of the northwest corner of Greenfield and McDowell roads.

**Daedalus Real Estate Advisors** constructed the office, with **Kennedy Design Build**, a Mesa business with offices at Dover Industrial Park, as general contractor for the project. Phoenix-based Dickinson Architects designed the building.

Lauding the nearing completion of Loop 202, **Todd Tucker**, Cornerstone Homes chief executive and Mesa native, said in a statement, "With the unique design of the building, Daedalus and Kennedy did an excellent job of bringing all the details together and creating something truly special."

Cornerstone Homes specializes in production and custom homes, as well as custom lot development and land entitlement.

For more on Dover, contact **Joe Isbell** at 602-889-2300.
